

Work Remotely and Productively

12-22North Coworking is a great location for remote workers from large companies who do not need to be in the office every day. If this fits for you or your employees, a membership at 12-22North Coworking is a great way to maintain the productivity of the office without having to commute. People in Burlington can easily access our coworking space, getting people out of cars, and into a place where they can network, share ideas, and get their work done. See if this works for you by signing up for a free day pass using the code LAUNCH

[Free Day Pass](#)

If you find that this is an option you might want to pursue in the future, sign up for a designated desk or a punch pass for your employees.
